Student name and number:				
Exceptions and exception handling	**Available Marks**	**Student Claim**	**Lecturer Marks**	**Comments (Student or Lecturer)**
Robustness of system (e.g. Input checked)	15	15	15	
Custom exception class created and used	15	15	15	
Use of try and catch	10	10	10	
	40	**40**	**40**	
GUI and general program success				
Layout of GUI (including design\look)	10	10	7	Please demo the GUI in case there are difficulties launching
Use of Panel to control layout	10	10	10	
Images coded and appear	20	20	20	
Threaded delay of image\info	10	10	10	
Performance of GUI	10	10	5	I'm taking marks off here because it wan't demo'd on the video and I had to move things around to get it to launch
Switching of language (performed fully using components)	20	20	20	
Modularized listener code (e.g. inner class)	20	20	20	
Sounds playing when listener invoked	20	20	20	
Integrated use of Instrument classes in GUI	20	20	20	
Use of methods to achieve goals and separate tasks	20	20	20	
Display of message on GUI	10	10	10	
	170	**170**	**162**	
Internationalization				
Localized strings first language	10	10	10	
Localized strings second language	10	10	10	
Localized class\classes or ResourceBundle	20	20	20	
Switch of language strings works completely (both ways, i.e., to and from English)	20	20	20	
Use of Locale classes	10	10	10	
Logic of internationalisation (classes/approach)	10	10	10	
	80	**80**	**80**	
Musical Instruments (OO)				
Base class with general attributes\methods for sub-classes (use of abstract or interface)	15	15	15	
Three sub-classes with specific information\behaviours	45	45	30	Having a play sound method implemented here at the subclass level create a dependency on the Clip and also repeats code between the subclasses....sound path could be returned
Use of relationships and logic of classes	10	10	10	
	70	**70**	**55**	
Comments, Naming\Formats, Logger				
Javadoc (use of tags and comments throughout classes)	10	10	10	
Use of logger throughout the code and classes	10	10	10	Seems to have captured Java classes too?
Modules (Naming and Usage of packages and imports)	10	10	10	
Good naming of variables and/or attributes etc. throughout	10	10	10	
	40	**40**	**40**	
Total	**400**	**400**	**377**	

	Y/N	Y/N (Assessor)
Correct Version?	Y	Y
Self Assessed?	Y	Y
Supporting Docs?	Y	Y
Videos Included?	Y	Y (Should show the GUI working in case something doesn't work for me)

Total student claim	**400**
Final Marks (40 max)	**377**
% Marks	**94.25**
