# Linux PrivEsc Arena

The screenshot shows the 'Linux PrivEsc Arena' room page on the TryHackMe platform. The header includes navigation links for Dashboard, Learn, Practice, and Compete, along with a search bar and a user profile icon. The room title 'Linux PrivEsc Arena' is prominently displayed, followed by a description: 'Students will learn how to escalate privileges using a very vulnerable Linux VM. SSH is open. Your credentials are TCM:Hacker123'. Below the title, there are statistics: 75 min, 33,292, and a badge icon. A green bar indicates 'Room completed (100%)'. A list of tasks follows, each with a green checkmark indicating completion: Task 1 (Optional) Connecting to the TryHackMe network, Task 2 Deploy the vulnerable machine, Task 3 Privilege Escalation - Kernel Exploits, Task 4 Privilege Escalation - Stored Passwords (Config Files), Task 5 Privilege Escalation - Stored Passwords (History), Task 6 Privilege Escalation - Weak File Permissions, Task 7 Privilege Escalation - SSH Keys, Task 8 Privilege Escalation - Sudo (Shell Escaping), Task 9 Privilege Escalation - Sudo (Abusing Intended Functionality), and Task 10 Privilege Escalation - Sudo (LD\_PRELOAD).
